

DISTRESS SIGNALS

Wave both arms vertically

Hoist 'V' at yardarm

Hoist anchor ball over any 'flag' up forestay

Use handheld flare to pinpoint precise position at night or in dull conditions

Parachute flare for use at long range offshore

White flare - collision warning

Handheld orange smoke to pinpoint precise position in bright conditions

Floating orange smoke

Signal Morse **S O S** by sound or light

Fire rocket vertically

If windy fire 15° downwind

NEVER fire a parachute flare if a helicopter is approaching.

NEVER fire into the wind

In low cloud fire at 45°

Orange smoke for use by day - especially in strong sunlight

LIFE SAVING SIGNALS

Search and Rescue Unit Replies

You have been seen, assistance will be given as soon as possible.

Orange smoke flare

Three white star signals or three light & sound rockets fired at approx. 1 minute intervals.

Shore to Ship Signals

Safe to land here

Vertical waving of both arms, white flag, light or flare

Unsafe to land here. Additional signals mean safer landing in direction indicated

Horizontal waving of white flag, light or flare. Morse **S**. Putting one flag, light or flare on ground and moving off with a second indicates direction of safer landing.
